# ASCO Programs in Asia Pacific

Visit [asco.org](https://asco.org) to learn more.

Activities supported by the Regional Council noted with an asterisk \*.

## ASCO Breakthrough

ASCO Breakthrough delivers education, science, inspiration, and solutions driven by the community of practicing clinicians, oncology thought leaders, med-tech pioneers, and research trailblazers who come together at this can't-miss meeting in Asia. Early Registration ends June 26.

## ASCO QOPI™ Pilot

ASCO's Quality Oncology Practice Initiative (QOPI) pilot program allows practices in low- and middle-income countries to report on evidence-based quality measures, receive individual performance scores, and participate in a limited measure set. Training will be provided virtually by English-speaking ASCO Care Delivery Registry staff, and participating institutions may gain access to the QOPI program, subject to legal review and compliance.

## ASCO Leadership Development Program (LDP) – Asia Pacific\*

This program teaches skills in leadership, communication, presentation, and conflict management, which will empower participants to assume leadership roles and encourage collaboration within the region and ASCO. Find more information on this and other leadership programs at [asco.org/leadership](https://asco.org/leadership).

## International Cancer Corps (ICC)\*

The ICC's mission is to improve the quality of cancer care at medical institutions in low- and middle-income countries by providing education and training to clinical staff.

## Virtual Mentoring Program (VMP)

This year-long program pairs mentees with experienced professionals outside of their home institutions to help navigate career challenges and grow personally and professionally. Applications open in the fall of 2024.

## Conquer Cancer® Grants & Awards

Conquer Cancer®, the ASCO Foundation, supports cancer research around the world, including programs geared toward oncologists in low- and middle-income countries. New funding opportunities added frequently; deadlines vary.

## ASCO Asia Pacific Regional Council

The Asia Pacific Regional Council is integral in developing and modifying ASCO programs, products, and services to meet regional needs. To engage with your Council member, please email [regionalcouncil@asco.org](mailto:regionalcouncil@asco.org).
